MUGI | 2019

DUBROVNIK, CROATIA

MUGI Courses | April 10-12

Courses in our products provide in depth instruction and exercises intended to help users become sufficient in their required areas of expertise. A variety of levels are offered in our courses. While the introductory courses are welcome for beginners, we encourage the user to have some experience with the software before attending an in depth course with hands on exercises.

Basic GRTMPS

Wed-Fri April 10-12, 2019

This course covers the basic development and application of GRTMPS planning models. Students will learn what is required to build a basic planning model as well as get further exposure to techniques and capabilities within the system.

Course Fee

\$2200 USD if also attending Conference
\$2400 USD Early Bird (Register before Mar 1, 2019)
\$2600 USD full price

Intermediate GRTMPS

Wed-Fri April 10-12, 2019

Relationships and Clever Tricks: This course explores a variety of more controls and clever tricks for modeling more complex relationships in GRTMPS planning models, and also offers opportunities to experiment with some of the analysis tools.

Course Fee

\$2200 USD if also attending Conference
\$2400 USD Early Bird (Register before Mar 1, 2019)
\$2600 USD full price

H/CAMS

Wed-Fri April 10-12, 2019

This course will cover the concept of crude re-cutting and how to configure H/CAMS to obtain best representation of product streams produced in your operations.

Course Fee

\$2200 USD if also attending Conference
\$2400 USD Early Bird (Register before Mar 1, 2019)
\$2600 USD full price

Petroleum & Refining Basics

Thur April 11, 2019

This course provided by Joe Barth will offer participants a brief introduction to the basics of the petroleum refining industry. The course is for everyone in the refinery/petrochemical industry, including traders, process engineers, process control engineers, operations personnel and planners. The seminar is also useful for anyone in support functions: law, medical, purchasing, controllers, security, public relations and human resources. No prior knowledge of refining/petrochemicals required. Newcomers and new managers are especially welcome!

Course Fee

\$800 USD if also attending Conference
\$1000 USD Early Bird (Register before Mar 1, 2019)
\$1200 USD full price

H/COMET

Thur April 11, 2019

The H/COMET course covers all the functionalities of Haverly web-based Crude Oil Management Evaluation Tool: viewing and comparing crude assays; calculating netback values for a specific region, country or operator refinery; and estimating breakeven prices for opportunity crudes.

Course Fee

\$800 USD if also attending Conference
\$1000 USD Early Bird (Register before Mar 1, 2019)
\$1200 USD full price

Get Involved! Would you like to present a paper at this year's MUGI? Papers by clients often describe novel solutions to common and unusual problems. By presenting at MUGI, companies have the opportunity to market themselves as leading organizations within our industry. MUGI presenters will receive 50% off from the early discount rate for their

conference registration fees (\$800). To submit a presentation request, please fill out an online form at www.haverly.com/mugi.

Not interested in presenting a technical paper? We also have opportunities to participate as a session leader. Email conference@haverly.com to find out more.
